My sweet family

by Hui Chiu Man

My family is sweet and awesome,

Just let me tell you why.

I'm sure I will convince you

by the time six stanzas go by.

My father is a scientist;

he is a clever fox.

With scientific principles

One day he'll create miracles.

My mother is a clerk;

She is a busy bee.

Sometimes she speaks English and Putonghua,

She always takes care of me.

My brother is a driver.

He drives as fast as lightning.

Although it is Sunday,
his drive to work is frightening.

I am a smart boy;
I like to do drama and role-play
changing like chameleons,
I know I can do anything.

This is my sweet family -
my family is awesome.
If you don't believe me?
Just go ahead and call them.
